UNITED STATES DISTRICT COURT
CENTRAL DISTRICT OF CALIFORNIA

ROBERT V. GONZALES,
Plaintiff,

v.

THE REGENTS OF THE UNIVERSITY
OF CALIFORNIA, Et. Al.
Defendants.

CASE NO. 8:23-CV-01788-JVS(KESx)

Declaration in Addition to Doc. #98

Date & Time: No Hearing

Dept: 10C

Judge: Hon. James Selna

CONTENTS

1. Declaration of Exhibit C(5)

PG. 2-4; 8-87

2. Declaration of Exhibit A(9)

PG. 4-7; 88-158

DECLARATION OF EXHIBIT C(5): JOB APPLICATIONS SINCE AUGUST 2024

In addition to the 91 job applications submitted in Doc. #98, Exhibit C(5) includes 77 more applications concerning jobs I have applied for since August of 2024. The **injury** demonstrated by Exhibit C(5) materials in combination with Exhibits A(3), B(8), B(13), C(1), and C(2) is irreparable damage to my young-adult life opportunities and outcomes as a result of official university actions. Exhibit C(5) demonstrates a violation of **State due process** in the form of at least 172 unsuccessful job applications and the evident judgments or assumptions made about “dropping out” and other elements of my character on the part of the potential employers who view my education status on my resume. Some of the job postings sent me reply emails saying “we have moved forward with someone else” feedback, but many did not. I also sent many other applications through private website software other than Indeed.com. The conclusion I am drawing from the unusual effort demonstrated by Exhibit C(5) materials below is not that I would have been hired to all of any of these jobs for certain minus the false appearance of being a college drop-out. I cannot get the years lost in my young adult life back. The **cause** that Exhibit C(5) demonstrates is whether a false appearance as a result of official university actions, or in some cases the lack of a bachelor’s degree I would have already had two years ago, have completely cut me off from all of these job and career opportunities. The **relief** I am requesting from the court under this line of inquiry is to order the Regents of the University of California, UC Office of the President, or other appropriate authority to compensate me a recovery equal to a value representative of the damages as a result of the outcomes of the hardship I have experienced as articulated in the joint report (same as Ex. B(13)). On August 18th of 2024, I applied to Canvass America (pg. 8-9 below), Care in Action (pg. 10 below), Edgewood Tahoe Resort (pg. 11 below), Law Office of Adam T. Spicer (pg. 12 below), 4 jobs with CADDC LLC (pgs. 13 & 16-18 below), For Our Future Action Fund (pg. 14 below), Nevada Power Products (pg. 15 below),

7 feedback from Target for four jobs where the company moved on to toher candidates for the
8 positions (pg. 84-87 below)

11 **DECLARATION OF EXHIBIT A(9): RECEIVED REPLIES FROM LAW FIRMS**

12 I have tried using several free lawyer referral services on Google in Alameda County, Orange
13 County, and the State of California. I tried contacting for a second time the 93 firms which I
14 previously documented including the 75 which I previously received replies from and 29 whom
15 previously responded. I also added 108 new law firms to my notes and received replies from
16 each of them, many of which specialize in educational rights. Of the 201 total firms I have
17 received replies from, only 58 have replied at all. The expectation to contact an endless number
18 of law firms constantly instead of in sudden batches is unreasonable, especially when the number
19 of educational rights attorneys runs low and when the feedback is predictable. In addition to the
20 firms which responded to me shown in Doc. #98 and the many others which did not send any
21 response, I received replies from the following firms on the following dates. On November 21st
22 of 2024 I received replies from Laub & Laub (pg. 89-91 below) and Killpatrick and Bullentini
23 (pg. 88 below). On November 21st of 2024, I received replies from Burke Williams and Sorensen
24 (pg. 92-94 below) and Kostnett law firm (pg. 95 below). On November 26th of 2024, I received
25 replies from the law office of Michelle Ball (pg. 96-97 below). On November 27th of 2024, I
26
27
28

1 received replies from the Leigh law firm (pg. 98 below) and F3 law firm (pg. 99-100 below). On
2 December 3rd of 2024, I received replies from the law office of Stephen Rodriguez (pg. 101
3 below), Lazarus Law and Justice Project (pg. 102 below), Butch Alter (pg. 103 below), Burris
4 Nisenbaum Curry and Lacy (pg. 104 below), Kelsuk law office (pg. 105 below), Cutter law office
5 (pg. 106 & 139 below), and Grombchevsky law office (pg. 107 below). On December 4th of
6 2024, I received replies from Audet and partners (pg. 108 below), Badame law office (pg. 109
7 below), King and Siegel (pg. 110 below), Lento law firm (pg. 111 below), law office of John
8 Burris (pg. 112 below), KJK Student Defense (pg. 113 below), Corrigan Welbourne Stokke (pg.
9 114 below), Bohm law group (pg. 115 below), Greene Broillet Wheeler (pg. 116 below), Helm
10 law office (pg. 117 below), law office of Michael Fell (pg. 118 below), the Garza Firm (pg. 119
11 below), Eisenberg and Associates (pg. 120 below), Genie Harrison (pg. 121 below), Wade
12 Litigation (pg. 122 below), Evans law firm (pg. 123 below), Kohn Kohn Colapinto (pg. 124
13 below), Winer Burrit Scott (pg. 125 below), Sanford Kassel Law office (pg. 126-127 below),
14 Constantine and Canon (pg. 128 below), Nostrati law office (pg. 129 below), Lerner and Rowe

Hi Robert,

Good morning and happy Wednesday! Looking into this issue further it seems that your assessments have been completed and your applications are currently being reviewed by our hiring team. If you follow a prompt to complete an assessment for a position you have already been declined for, this would cause an issue with the link as discussed on the phone. I have looked into this and see that your assessment has been completed for each of the following applications submitted within the last week: Non-Certified Ski Instructor, Member Service Associate, Ski & Ride School Administrative Associate, Resort Content Specialist, and Maintenance Crew.

It seems that our Talent Aquisition and hiring team are currently reviewing these applications and will reach back out if they have any additional questions or concerns.

Hi,

I have not completed one assessment for 13 positions which I stated over the phone, nor could I access one of them which I stated over the phone. None of my assessments have been completed, and I should have the opportunity to complete the assessment once so it can carry over to other applications. Which I stated over the phone.

While at the Heavenly property yesterday, I was informed that I was given a score of "1," which indicated to the person I was talking to that I HAVE NOT COMPLETED THE ASSESSMENT, which I have not even had any access to once, and she also stated that it is a common issue with the Vail software at Heavenly for prospective employees to be blocked from accessing the assessment. The assessment which I have not completed or accessed, as I stated over the phone.

So no, I have not completed a single assessment despite the software showing a score of "1" as I was told, which we discussed over the phone. I did not complete an assessment or even access one, not even for positions I was declined for, so that cannot be the problem because I could not access an assessment for those positions either. Which I stated over the phone.

In fact, over the phone, I repeated that I have not completed one assessment nor have I accessed the carry-over assessment once. Which I keep repeating because the email above should have been recorded for quality-concern purposes.

Please provide access to the assessment so I can complete it, which I have not done yet, nor have I even accessed it. Which I repeated over the phone and over email. I cannot imagine how I received the response above after the conversation describing the exact opposite over the phone.

Hi Robert,

Thanks for reaching out! Here is a link to the completed assessment we have on file for you: <https://sus.hvue.io/9TzKjJZ9xcBeYLVx>

Try accessing this and seeing if you can retake or if this is still pulling up as complete (which I know you say you have not done).

I will also be transferring your case to another team to assist with any follow-ups!

Thank you,

Hi,

Still cannot access the assessment. On what date does the software say I completed the assessment?

Also, I know that you are relying on what I am saying happened, generally. Genuinely in today's world.

But if I have sent repeat messages saying that the exact opposite words were put in my mouth over the phone. And there is a recording of the conversation showing a lie.

Wouldn't one be able to form more of a conclusion? Than just relying on what I say or anyone says?

Thank you!

AG LEGAL SECRETARY 11/27/2024

10 messages

bobby gonzales <bgharcenter@gmail.com>

To: kbarrette@ag.nv.gov, aford@ag.nv.gov, aaronford@ag.nv.gov, aaron.ford@ag.nv.gov, aaron_ford@ag.nv.gov, VBeavers@ag.nv.gov, kgeorge@ag.nv.gov, cbrady@ag.nv.gov, cjbrady@ag.nv.gov

Hi,

My name is Bobby Gonzales.

I found an open position for AG LEGAL SECRETARY on 11/27. The indeed app said the application closes on this date, so I filled it out on the State NEATS website. However, I am being shown an error message saying that the application didn't send because it has apparently already closed before the end of the day. I selected boxes for many of the skills listed in the application, and I also added several of the skills I listed on my "governmentjobs.com" profile such as "research" and "investigation."

I am a first dan black belt certified by the school of Moodukkwan. I have been able to take control of large crowds in urgent situations in the past, and I can build a captivating, unmatched narrative. As a student, I have already offered national emergency assistance to appropriate professionals for a constitutional issue which has still not been solved. Since a very early age, I have idealized simple answers to update outdated norms in the English Common Law system, such as updated standards of proof to improve both sides of cause and doubt/preponderance. **Just imagine, if we still do not really distinguish between the "objects" and "concepts" which we call "things" within our Nouns!**

I have been unemployed for two years, and I have unsuccessfully applied to more than 200 jobs in recent time. The jobs I have been applying to are not so exciting I might add, and I would be motivated enough to drive down from Tahoe everyday and all around if necessary! Please find a position to hire me in any or all departments, full-time or on call. I indicated that I can be very flexible based on the hiring needs in the application which I printed as a PDF at the end of the process and attached below.

I also sent this email to AG Ford, Assistant AG George, and Assistant AG Brady, and Mrs. Beavers partly because of the applications I sent in to the CA AG's office a few weeks ago following the "Progress will Prevail" CA legal challenges announcement in preparation for the new presidential administration, as shown in the form of apparent *overachievement* in the fifth attachment below.

Thank you for your time. I really need to and probably deserve to hear back soon!

If the risk/reward ratio is worth the time of the firm, can we discuss a contingency deal to redress the efforts of the last 11 years of my life so I can get back on track? The elements of the federal lawsuit I have been representing myself in for the last year has been dragging my life away for the last four years, and has gone on for long enough.

Over time, through induced chaos and an increasing lack of will, I have still managed to organize my disclosures, claims, motions, and requests for relief.

However, I keep being wrongly accused of "putting my periods on backwards by professionals who have run out of serious answers" as an excuse for the District Court to avoid my case altogether.

Basically, I am being accused of A) providing "no" evidence in the face of direct communications with wrongdoers about their wrongdoings in real time, audio exhibits, and more; B) claiming "zero" federal injuries in the face of an obvious due process claim as well as a perfect precedent that lays out the foundation for an exception to normal exhaustion requirements which the judge keeps avoiding; and C) overt avoidance of a variety of motions and the topic of redressability whatsoever.

I have already done all of the work. I just need a professional who can get through to the University legal team and end this madness according to the incredibly overexerted efforts over the last 11 years of my life.

Thank you for your time.

Hi,

My name is Bobby Gonzales. I have lived at the South Shore my entire life. As a longtime, independent student of Constitutional Law and Criminology, I have developed a creative toolkit for law firms in need of extra hands to conduct investigations and research, expanding potential opportunities, defining new boundaries, or even just doing extra paperwork, getting supplies and coffee, or keeping watch of the Dogs.

I am even currently representing myself in federal litigation in what I was calling "the case of a lifetime," but have since realized it is "the lawsuit from hell" after functionally being accused of 'putting my periods on backwards' over and over again by pros with an apparent M.O. of having nothing better to say.

I am a first dan black belt certified by the school of Moodukkwan.

I have been able to take control of large crowds in urgent situations in the past, and I can build a captivating, unmatched narrative.

As a student, I have already offered national emergency assistance to appropriate professionals for a constitutional issue which has still not been solved.

Since a very early age, I have idealized simple answers to update outdated norms in the English Common Law system, such as updated standards of proof to improve both sides of cause and doubt/preponderance.

I know when the theories of interpretation cross over into postmodern denial and disparagement of substantive rights by the procedural side on party lines.

Just imagine, if we still do not really distinguish between the "objects" and "concepts" which we call "things" within our Nouns!

THANK YOU FOR YOUR TIME.

I HOPE TO HEAR BACK SOON.

Hi,

Thank you for giving me the opportunity today to talk a little about what I've been doing for the last 10 years.

Basically, I've been working on some of the biggest, boldest things as I mentioned. To briefly mention the looproad, I have compiled thousands of pages of documents proving a conspiracy to weakly hide a new vision for the project from a community that has been rejecting the idea since before I was born. There is a lot to talk about, and a lot of possibilities including as it relates to a victory.

TO MENTION SOMETHING SMALLER that will be more useful to you sooner, I can research the total "potential energy" of claims, defenses, process, etc. relevant to the everyday work of your firm.

Basically, I can investigate, document, map out, and develop tests for hypotheses that are important or could be newly critical to your firm's work. These kind of "horizon expanding" projects can be under many possible frameworks: a) the total of possibilities within specific provisions of law you frequently tangle with yourself; b) the topics you frequent where you may want or need more legal/factual major premises to work with; c) new topics which your firm may already be somewhat equipped to grow into absent of critical info.

If I could take you through some of my past independent projects sometime, I could EXEMPLIFY how much I can and already have expanded the KNOWN boundaries of your firm and those of others in the past. Science is not a blind-faith authority, it is replication through testing, and our society is currently experiencing a realignment with the facts. I can exemplify how I have "cornered every lawyer who has tried to play 'gotcha' on me and has run out of serious answers." I

promise you, I am great at impeaching witnesses, etc. And I'm sure many people will be genuinely interested in the details of how things I've been doing in the last several years have created waves in our State, country, and around the world!

Thank you for your time. After being unemployed for two years, and making a federal claim related to at least 100 job applications before my latest ones, I really, really hope to hear back soon to start getting creative.

When I tried in the past, educational rights law firms blew me off and even sloppily tried to gather info for the university.

Technically I did suffer a physical injury, as a result of a breach of a specific duty of care.

I can really tell you about the potential for ACTUAL reward in my current case. I would really appreciate some attempts at negotiating a settlement.

My name is Bobby Gonzales.

I have been representing myself in a federal lawsuit for the last year. I have clearly organized my concrete legal injuries, the causes, disclosures, relief within the court's grasp, and I am currently stuck tangling with a jurisdictional [non]issue by an avoidant defense team and judge.

Basically, everything started with a photo of a former boss from a warehouse who **threatened to retaliate against "my future"** which found its way on a university webpage. Instead of initiating a UC whistleblower investigation, several UC employees went out of their way to A) wrongly perceive me as a protected class as an excuse to make a prejudicial conclusion with unusual knowledge of the events elsewhere before initiating any whistleblower investigation, B) breach a duty of care related to safety in dorm housing, C) investigate my student conduct and punish me with apparent political bias when left to my own devices in the face of the negligence, D) prevent me from proving allegations and obtaining evidence, E) imposed several unlawful punishments, F) delay and obstruct several grievance procedures, and more. **Federal jurisdiction largely rests on point D) above, but also on several irreparable injuries.**

I just need someone who can effectively get through to the defense team and end this madness according to the incredibly overexerted efforts I have sacrificed over **the last 11 years of my life**. Instead of addressing the sound exception to the normal requirements for exhaustion of remedies which I have repeatedly raised, the totality is continuously omitted from court rulings, and I keep being wrongly accused of "putting my periods on backwards by professionals who have run out of serious answers."

I am being accused of A) providing "no" evidence in the face of direct communications with wrongdoers about their wrongdoings in real time, audio exhibits, and more; B) claiming "zero" federal injuries in the face of an obvious due process claim as well as the totally-avoided, perfect precedent for normal exhaustion requirements in a case like mine; and C) overt avoidance of a variety of motions and the topic of redressability whatsoever.

Can we please discuss the arrangement of a contingency deal with a high potential for reward given the elements of my injuries?

Thanks. I really hope to hear back soon!

Hi Bobby Gonzales,

We have received your message. Our Team will get in contact with you shortly.

Your Message:

Subject: Civil Rights, Personal Injury, Appellate, Other

Issue: My name is Bobby Gonzales.

I have been representing myself in a federal lawsuit for the last year. I have clearly organized my concrete legal injuries, the causes, disclosures, relief within the court's grasp, and I am currently stuck tangling with a jurisdictional [non]issue by an avoidant defense team and judge.

Basically, everything started with a photo of a former boss from a warehouse who threatened to retaliate against "my future" which found its way on a university webpage. Instead of initiating a UC whistleblower investigation, several UC employees went out of their way to A) wrongly perceive me as a protected class as an excuse to make a prejudicial conclusion with unusual knowledge of the events elsewhere before initiating any whistleblower investigation, B) breach a duty of care related to safety in dorm housing, C) investigate my student conduct and punish me with apparent political bias when left to my own devices in the face of the negligence, D) prevent me from proving allegations and obtaining evidence, E) imposed several unlawful punishments, F) delay and obstruct several grievance procedures, and more. Federal jurisdiction largely rests on point D) above, but also on several irreparable injuries.

I just need someone who can effectively get through to the defense team and end this madness according to the incredibly overexerted efforts I have sacrificed over the last 11 years of my life. Instead of addressing the sound exception to the normal requirements for exhaustion of remedies which I have repeatedly raised, the totality is continuously omitted from court rulings, and I keep being wrongly accused of "putting my periods on backwards by professionals who have run out of serious answers."

I am being accused of A) providing "no" evidence in the face of direct communications with wrongdoers about their wrongdoings in real time, audio exhibits, and more; B) claiming "zero" federal injuries in the face of an obvious due process claim as well

Thankyou for contacting us.

Best Regards,

Dear Bobby Gonzales,

Thank you very much for contacting Audet & Partners LLP via our online feedback form.

This is an automatically generated email, please do not reply to it.

We will review your inquiry shortly, and contact you if appropriate.

Please be aware that the transmission of an e-mail inquiry itself does not create an attorney-client relationship. Audet & Partners LLP cannot serve as your counsel in any matter unless you and our firm expressly agree in writing that we serve as your attorney. You should also be aware that the Statute of Limitations (the deadline imposed by law within which you may bring a lawsuit) may severely limit the time remaining for you to file any potential claims you may have.

E-mail is sometimes unreliable. If we do not respond to you in a reasonable amount of time, please feel free to call us at (800) 965-1461.

Thank you for your interest in our firm.

Hi Bobby,

Thank you for reaching out to us about your potential case. We would like to schedule an intake call with you to learn more about how we can help. Please let us know your availability and we will set something up for you.

We know that hiring lawyers can be a stressful experience, so I wanted to provide a little baackground on our firm and our practice. We are a contingency fee-based, plaintiff-side employment firm, meaning we represent employees only; we do not represent employers, and you pay nothing until we recover a settlement or judgment for you. Since founding the firm in 2018, we have recovered more than \$60 million for employees in individual discrimination and class action cases, and our partners have all been recognized as "Rising Stars" by Super Lawyers magazine. We encourage you to read testimonials from our prior clients or check out our reviews on Yelp and Avvo.

We look forward to connecting with you.

Best,

Bobby,

Hello. The Lento Law Firm team has received your message. We are sorry to hear about the trouble you're experiencing.

Please allow us to describe our initial help and availability in student and school matters by way of this message.

For your brief further reference as needed, we specialize in student and school-related issues and concerns nationwide at the school level (and in court as needed) in various capacities.

Please read the following carefully as it contains important information about our process should you like our help.

Please note that for such matters, we initially make ourselves available for purposes of a consultation where we would review the necessary information and documentation related to a case/matter and then follow up with a client to schedule the phone consultation as soon as reasonably possible, during which time we would discuss where the case stands, realistic best steps forward, and anything related. We charge a \$350 consultation fee to proceed for our professional input and availability in this regard.

(As to prospective representation which is beyond the stage of a consultation, once we can determine what is involved in the case, we would be able to speak to specific best steps forward and terms of representation, including applicable fees. We will be able to determine what is involved in the case through the course of the consultation.)

Upon payment of the consultation fee via the Lento Law Firm's secure URL link provided below, we can proceed further for purposes of the consultation, which initially will entail us sending you a detailed email requesting what is necessary for our review and assessment at this stage. The phone consultation itself will be scheduled as soon as administratively possible based on present Firm availability (not the same day payment is made) once a client provides the necessary case information per the above-referenced email we would send once engaged for purposes of the consultation.

We will try to take into account a client's potential deadlines in scheduling a consultation once engaged, and consultations will often be scheduled within one or several days after payment is made / case information is received. The Firm will determine the day and time the consultation will take place, however, and the terms of the consultation.

Please note that once payment is made, we are being engaged for purposes of the consultation, you will be charged the non-refundable (earned upon receipt) \$350 consultation fee, and we will proceed accordingly on your behalf. As the consultation fee is non-refundable once payment is made, please proceed only upon you being ready to proceed with our process as detailed per this email.

The Lento Law Firm's consultation fee secure payment link follows below. Please click on this link and make payment should you like to proceed as detailed:

<https://link.clover.com/urlshortener/vWCh7c>

Once payment is made, we will be notified, and we will follow up accordingly on your behalf as detailed.

(Please do not send anything related to the case in advance of us being engaged for purposes of the consultation as referenced above so that we can best direct what is needed at this stage.)

Thank you.

We don't get involved with cases filed pro se or by other firms.

This is not something that we would be interested in getting involved with. We have to decline your case.

After careful consideration, we have concluded that it is not feasible for this law firm to represent you. This is not intended to be an opinion concerning the merits of your case, we are merely indicating that we are unable to represent you.

If you intend to pursue these claims, you should immediately contact another attorney to obtain legal representation. You should be aware that there are strict time limitations within which you must act in order to protect your rights in this matter. Failure to file a lawsuit within the requisite time may mean that you could be barred forever from pursuing your action.

We regret that we could not take your case and we wish you success in pursuing the matter with other counsel. Please be advised that, in order to protect your privacy, our office will destroy all written correspondence, photos, and additional materials accompanying inquiries for representation.

Dear Mr. Bobby Gonzalez:

Thank you for contacting the Bohm Law Group, Inc. concerning your potential legal matter. We are honored to receive hundreds of requests for assistance from potential clients each month, and while we appreciate being regarded as one of California's elite worker's and civil rights law firms (and work hard to maintain that reputation), we are simply unable to accommodate such a large volume of demand. Based upon the information you submitted and the current demands of our existing caseload, we are not presently able to offer our assistance.

Our choice to not pursue your matter is solely a business decision on our part and is *not* an expression regarding the viability of your potential claims. We have *not* determined the precise legal violations of your rights which may have occurred from the information you submitted, and thus we cannot advise you as to the substance of any claims which you may have, or the applicable time limits for filing an action in pursuit of such claims. **Please note that failure to abide by whatever applicable time limits apply may forever bar you from any recovery. Therefore, you are encouraged to immediately seek the advice of another attorney to explore and/or pursue any claims which you may have.**

Although we are unable to provide you with a referral to any specific attorney at this time, you may wish to visit the *California Employment Lawyers Association* (CELA) website to search for an attorney that can provide you with the assistance you need. You may visit their "Find A Lawyer" section here: <https://cela.org/index.cfm?pg=FindaLawyer>. Simply scroll down and make your selection based upon an attorney's proximity to a certain zip code, languages spoken, and specific practice areas.

Thank you again for contacting our office regarding the possibility of representation. We truly regret that we are unable to accommodate your request at this time. We wish you the very best of luck in pursuing your potential claims.

Respectfully,

Mark Temple

Good Morning Mr. Gonzales,

Thank you for your inquiry. I regret to inform you that we cannot represent you in this matter.

Please understand that by our declination of representation, we mean to imply no judgment concerning the merits or demerits of your case, and we make absolutely no statement, either implied or express, about your chances for success in any lawsuit that you may deem to file. All we mean to do by this letter is express our gratitude for your thinking of us, and advise you that the facts of your case do not justify our participation in this lawsuit.

Of course, you must be mindful of the fact that certain statutes of limitations apply in a case such as this and, therefore, we strongly suggest that you consult other attorneys and that you do so in such a fashion as to give your new attorney adequate time to meet any applicable statute of limitations in your case and to adequately prepare your case.

Thank you once again for considering this firm, and please accept my sincere apologies and regrets that we cannot be of more service to you.

Very truly yours,

Dear Bobby Gonzales:

Thank you for contacting Helm Law Office, PC regarding your legal matter. Due to my current caseload, I am unable to help you with your legal matter.

This decision is a business decision and is not meant to reflect on the merits of your matter in any way. I am not expressing an opinion as to whether you should take further action in this matter; I am merely indicating that I will be unable to represent you.

Because we have not entered into an attorney-client relationship, I will not be representing you, or investigating or evaluating the facts or legal merits involved in your matter, and I have not given you any legal advice on how to proceed. Going forward, I will not be taking any action on your behalf, monitoring developments, advising you, or otherwise representing your interests. Because I am declining representation, I will not be able to answer any further questions regarding your matter.

Please be advised that a person must present a Government Code Claim, pursuant to California Government Code § 910, et seq., to the potentially responsible municipality or municipalities or State of California within 6 months of the date of the incident to preserve claims based in California law, or else such claims will be forever forfeited. Then, if the municipality or municipalities or the State of California serves a rejection notice of the claim, the claimant must bring California claims in a lawsuit within 6 months of the date of service of the rejection, or the claims may be forever barred. Federal civil rights claims under 42 U.S.C. § 1983 must be brought within 2 years of the date of the incident, or they may be forever barred.

Therefore, you should act immediately if you wish to pursue this matter by finding an attorney. If you do not know of another attorney, I suggest that you contact a county bar association for a referral to another attorney in the area. You might also consider looking at the National Police Accountability Project's website, which lists attorneys by state who handle police-misconduct matters.

Again, thank you for contacting my office, and I wish you the best of luck should you choose to pursue this matter.

Sincerely,

Dear Bobby,

Thank you for contacting us for legal services. We appreciate you trusting us with your matter. Unfortunately, due to our current caseload and after careful consideration, we have determined that we cannot assist you at this time. Please do not accept our decision not to represent you as any indication of the merits of your matter.

IMPORTANT INFORMATION: You should be aware that there are strict deadlines (sometimes referred to as due dates, response dates, limitations periods, or statutes of limitations) within which to make claims, file lawsuits, or otherwise pursue or defend cases. Once those deadlines pass, your ability to protect your interests is forever barred, and you can lose all of your legal rights. The exact dates those deadlines expire vary from case to case. It is usually best to have an attorney advise you about deadlines and prepare any court papers for you. So, you should continue to seek legal counsel. You may want to call the Los Angeles County Bar Association for Lawyer Referral Services at (213) 243-1525. You may also want to look for California Employment Lawyers at www.cela.org.

Dear Bobby,

I've been assigned to review your case and fully understand the challenges you've described. This is something we could potentially assist with.

I did notice you mentioned being interested in a contingency arrangement. At Wade Litigation, we are a retainer-based firm and do not take cases on contingency. Are you open to working with a retainer-based firm? If so, we'd be happy to discuss the next steps.

Looking forward to your response!

Dear Bobby Gonzales,

Thank you for contacting the Evans Law Firm, Inc. Please allow this letter to confirm that we will not be able to accept your case and must, therefore, decline representation.

You should not construe this firm's decision not to take on representation as constituting a legal opinion that you do not have a valid legal claim. If you have any interest in pursuing such an action, we would encourage you to contact another attorney immediately as there are always time limitations under law for filing cases. **Please be aware that, if you do not act within a certain prescribed time (this time limit is called the statute of limitations), the law will prohibit you from seeking such an action.**

In the future, we hope that we can be of assistance to you in the following legal matters:

Consumer fraud cases against insurance companies (including claims against insurance companies that sell whole life insurance, universal life insurance, annuities, long term care insurance and other insurance products), banks, and other product and service providers for fraudulent and unfair business practices. Generally, we handle these types of cases as class actions because they involve a relatively small amount of damages to any one person but the practice occurred to a large number of people.

Elder abuse claims for both financial and physical abuse cases, including securities, banking and insurance products that were sold to you or a loved one such as deferred annuities, long term care insurance, were taken advantage of by an insurance agent or investment advisor.

Estate and Trust litigation including trust and will contests, conservatorships, powers of attorney litigation, and removal, probate matters, estate, and trust administration.

Whistleblower Cases and Employment cases including whistleblower cases for tax fraud, false claims for government payments, securities fraud, or violations of bank and lending laws; and cases against employers for harassing, demoting or firing employee/whistleblowers.

We appreciate your contacting us, and we hope that if we can be of service in the future, that you will contact us again.

Very truly yours,

Ingrid M. Evans

Dear Bobby,

Thank you very much for contacting us. A partner of the firm has reviewed the confidential information that you submitted and it is most unfortunate that we are unable to represent you. We receive numerous requests for representation and we simply are not able to represent everyone who contacts us. Not being able to offer our assistance is the hardest decision we have to make. Our inability to represent you at this time is not a reflection on or a determination of the merits of your case.

It is essential that everyone involved in a whistleblower case know their rights. We strongly recommend that you review the free comprehensive online Law Library and obtain a copy of Rules for Whistleblowers. All profits from the sale go to the National Whistleblower Center.

Our law partner, Stephen Kohn, created the Law Library and the Rules book as the essential book non-lawyers and lawyers need. Rules for Whistleblowers includes guidance on preparing for a hearing, draft discovery (model discovery included), evaluating whether you qualify for a reward, and understanding what disclosures are "protected." Rules for Whistleblowers covers the private sector, federal and government employees, and international claims.

For assistance with finding an attorney, we suggest you visit the comprehensive whistleblower resources provided by Whistleblower Network News. These resources include a lawyer directory and information about whistleblower laws and programs.

We wish you the best of luck –

Sincerely yours,

Re: Your potential legal claim

Dear Bobby:

Thank you for contacting our firm regarding your potential legal claim. Based on the information you provided our firm has determined that we are unable to assist you or represent you in this claim. This letter is not intended to be an opinion concerning the merits of your case, nor are we expressing an opinion as to whether you should take further action in this matter. We are merely indicating that we will be unable to represent you.

There are strict time limitations within which you must act to protect your rights in this matter. These time limits are complex and vary for different types of legal action.

You should act immediately if you wish to pursue this matter. Failure to file a lawsuit within the requisite time may mean that you could be barred forever from pursuing your action.

several grievance procedures, and more. Federal jurisdiction largely rests on point D) above, but also on several irreparable injuries. I just need someone who can effectively get through to the defense team and end this madness according to the incredibly overexerted efforts I have sacrificed over the last 11 years of my life. Instead of addressing the sound exception to the normal requirements for exhaustion of remedies which I have repeatedly raised, the totality is continuously omitted from court rulings, and I keep being wrongly accused of "putting my periods on backwards by professionals who have run out of serious answers." I am being accused of A) providing "no" evidence in the face of direct communications with wrongdoers about their wrongdoings in real time, audio exhibits, and more; B) claiming "zero" federal injuries in the face of an obvious due process claim as well as the totally-avoided, perfect precedent for normal exhaustion requirements in a case like mine; and C) overt avoidance of a variety of motions and the topic of redressability whatsoever. Can we please discuss the arrangement of a contingency deal with a high potential for reward given the elements of my injuries? Thanks. I really hope to hear back soon!

Your Inquiry to Constantine Cannon

Wed, Dec 4, 2024 at 3:13 PM

Dear Bobby,

Thank you for your case inquiry. Unfortunately, as our email to you on September 18, 2023 stated, Constantine Cannon is declining to represent you in this matter. Our decision should not be read as a statement about the merits of your potential claim. Other firms may view your case differently and we encourage you to seek another opinion.

If you wish to pursue this matter, you should seek alternate counsel quickly. As time goes on, the risk increases that impediments to the claim might arise, or the claim might be barred entirely. These include, but are not limited to, the statute of limitations running out, evidence being lost, another whistleblower filing a claim before you, or a public disclosure of allegations similar to yours.

Sincerely,
Ginger Buck

I have been representing myself in a federal lawsuit for the last year. I have clearly organized my concrete legal injuries, the causes, disclosures, relief within the court's grasp, and I am currently stuck tangling with a jurisdictional [non]issue by an avoidant defense team and judge.

Instead of initiating a UC whistleblower investigation, several UC employees went out of their way to A) wrongly perceive me as a protected class as an excuse to make a prejudicial conclusion with unusual knowledge of the events elsewhere before initiating any whistleblower investigation, B) breach a duty of care related to safety in dorm housing, C) investigate my student conduct and punish me with apparent political bias when left to my own devices in the face of the negligence, D) prevent me from proving allegations and obtaining evidence, E) imposed several unlawful punishments, F) delay and obstruct several grievance procedures, and more. **Federal jurisdiction largely rests on point D) above, but also on several irreparable injuries.**

Dear Mr. Gonzales,

Thank you again for contacting Keller Grover LLP, unfortunately, what you have raised is not an issue that our office can take up as a case at this time. Of course, our assessment does not mean that you may not have viable claims that another lawyer might view differently. Our decision should not prevent you from pursuing this matter through other legal counsel even though our firm is not representing you. I can direct you to the California State Bar where you can find a directory of other attorneys in your area who handle employment and retaliation claims.

Let me emphasize that it is essential that you take prompt action in pursuing any potential claim to comply with all applicable time limitations. Failure to do so could cause you to lose important legal rights. You should not assume that you have lost legal rights through the passage of time but should obtain legal assistance in determining exactly when any rights expire.

While any information you provided to us will remain strictly confidential, this email confirms that Keller Grover LLP has not represented you and does not represent you currently regarding this or any other matter, and that no attorney-client relationship exists between us. We are closing our file. You have our best wishes for success.

Hello Bobby Gonzales,

This is Thomas, Intake Specialist at Pointer and Buelna LLP. Thank you for completing a brief consultation with me. To complete the consultation process, please send over all documentation and videos regarding the matter discussed during the consultation. Upon receipt of the documents, your case will be evaluated. Once our evaluation process has concluded, you will be notified via email or phone regarding our potential representation.

Also, please note that our firm requesting this documentation does not imply that we are representing you, as we are requesting this information to thoroughly evaluate the inquiry you have submitted. If the needed documents are not received we will not be able to complete the evaluation.

Furthermore, it is very important that if you intend to pursue your claims any further, you must keep in mind that there are statute of limitations deadlines that affect your ability to take legal action. If you do not take legal action before the statute of limitations deadline, you may be forever barred from exercising your legal rights. During the consultation period, we urge you to have contact with other attorneys while we evaluate your potential case.

Best Regards,

Reason for Inquiry: Civil Rights

How Can We Help?: My name is Bobby Gonzales.

I have been representing myself in court for the last year. I have clearly organized my concrete legal injuries, the causes, disclosures, relief within the court's grasp, and I am currently stuck tangling with a jurisdictional [non]issue by an avoidant defense team and judge.

Basically, everything started with a photo of a former boss from a warehouse who threatened to retaliate against "my future" which found its way on a university webpage. Instead of initiating a UC whistleblower investigation, several UC employees went out of their way to A) wrongly perceive me as a protected class as an excuse to make a prejudicial conclusion with unusual knowledge of the events elsewhere instead of initiating any whistleblower investigation, B) breach a duty of care related to safety in dorm housing, C) investigate my student conduct and punish me in a discriminatory or retaliatory manner, D) prevent me from proving allegations and obtaining evidence, E) imposed several unlawful punishments, F) delay and obstruct several grievance procedures, and more. My claims largely rests on due process claims and several irreparable injuries.

I just need someone who can effectively get through to the defense team and end this madness according to the incredibly overexerted efforts I have sacrificed over the last 11 years of my life. Instead of addressing the sound exception to the normal requirements for exhaustion of remedies which I have repeatedly raised, the totality is continuously omitted from court rulings, and I keep being wrongly accused of "putting my periods on backwards by professionals who have run out of serious answers."

Basically, everything started with a photo of a former boss from a warehouse who **threatened to retaliate against "my future"** which found its way on a university webpage. Instead of initiating a UC whistleblower investigation, several UC employees went out of their way to A) wrongly perceive me as a protected class as an excuse to make a prejudicial conclusion with unusual knowledge of the events elsewhere instead of initiating any whistleblower investigation, B) breach a duty of care related to safety in dorm housing, C) investigate my student conduct and punish me in a discriminatory or retaliatory manner, D) prevent me from proving allegations and obtaining evidence, E) imposed several unlawful punishments, F) delay and obstruct several grievance procedures, and more. **My claims largely rests on due process claims and several irreparable injuries.**

I just need someone who can effectively get through to the defense team and end this madness according to the incredibly overexerted efforts I have sacrificed over **the last 11 years of my life**. Instead of addressing the sound exception to the normal requirements for exhaustion of remedies which I have repeatedly raised, the totality is continuously omitted from court rulings, and I keep being wrongly accused of "putting my periods on backwards by professionals who have run out of serious answers."

I am being accused of A) providing "no" evidence in the face of direct communications with wrongdoers about their wrongdoings in real time, audio exhibits, and more; B) claiming "zero" federal injuries in the face of an obvious due process claim as well as the irreparable injuries and totally-avoided, perfect precedent for normal exhaustion requirements in a case like mine; and C) overt avoidance of a variety of motions and the topic of redressability whatsoever.

I am ready for **trial**, but I am dealing with a defense team with a modus operandi of cornered professionals who have run out of answers and have nothing better to say. Can we discuss **the negotiation of a settlement** with a high potential for reward given the elements of my injuries, after possibly just one conference?

Thanks. I really hope to hear back soon!

Thank You For Contacting Us

Dear Bobby,

Thank you for contacting our firm regarding your potential case. I am always honored when somebody is willing to give me the opportunity to try to help them and I regret when I have to inform a potential client that I will not be able to help them.

Based upon the information provided, we have decided to decline your invitation to undertake your representation in this matter. This decision to decline your representation on this possible legal claim is not intended as a reflection upon the merits of your case, but rather is a business decision. Please be advised that Cutter Law will not be taking any action on your behalf against any potential defendant.

I understand that contacting our firm was probably not an easy decision to make, and I regret the impersonal nature of this response. However, due to the amount of calls and requests for representation that we receive, sending you a letter is the best way to ensure that we have followed through on your request.

If you decide to proceed with this possible claim, you must act promptly to contact and obtain other counsel as claims and cases must be filed within a statutorily defined time limitations period. We have not determined what limitations period may apply in your case and I stress the need for prompt action on your part if you wish to proceed to ensure that your potential claim is not barred by any applicable statute of limitations.

We appreciate you contacting us about this matter and wish you the best.

Yours very truly,

C. Brooks Cutter

Hi Bobby,

Thank you for contacting me, but I represent children.

I suggest you try calling Disability Rights Education and Defense Fund to see if they can help you.

And if they cannot help you, if they can refer you to someone who can.

Interested In: Criminal, DUI and Juvenile Law Defense

Country: United States

Message: My name is Bobby Gonzales.

As a highly motivated, 10-year student of law, I have been representing myself in court for the last year. I have done all of the casework and I am very familiar with the elements of my case, standing to make a claim, and important things in the law in general. I have clearly organized my concrete legal injuries, the causes, disclosures, relief within the court's grasp, and I am currently stuck tangling with a jurisdictional [non]issue by an avoidant defense team and judge.

I am more familiar with my case work than anyone else ever will be. I just need someone who can effectively get through to the defense team and end this madness according to the incredibly overexerted efforts I have sacrificed over the last 11 years of my life. Other than a case involving bodily mutilation, how many possible steeper irreparable injuries are there that warrant a HIGH REWARD recovery or settlement?

I am ready for trial, but I am dealing with a defense team with a modus operandi of cornered professionals who have run out of answers and have nothing better to say. Can we discuss the negotiation of a settlement with a high potential for reward given the elements of my injuries, after possibly just one conference?

Thanks. I really hope to hear back soon!

ALLRED, MAROKO & GOLDBERG

Dear Bobby Gonzales,

Thank you for contacting our firm regarding your legal matter. Unfortunately, due to our office's present case load and trial commitments, we are not able to consider representing you in any claims you may have as outlined in your intake. You may wish to contact your county's Bar Association for a referral to an appropriate attorney.

Please be informed that in every case there is a time period in which an individual must file a lawsuit or forever lose the right to do so. I have made no attempt to ascertain what that time period is as it pertains to the set of circumstances you describe. In addition, the fact that I cannot represent you should not necessarily be construed to mean that you have no case. If you wish to pursue this matter further, I would strongly urge that you seek a lawyer immediately to evaluate the facts and to advise you as to the time period available within which to file a lawsuit.

Neither this office nor any referring lawyer are your lawyers and no written attorney/client retainer has been entered into with our firm. Our statements are a matter of opinion only and we can make no guarantees. You are free to obtain and solicit other legal advice and we encourage you to do so.

Wishing you the best of luck in your pursuit of justice.

Very truly yours,

Gloria Allred

Message Body:
My name is Bobby Gonzales.

As a highly motivated, 10-year student of law, I have been representing myself in court for the last year. I have done all of the casework and I am very familiar with the elements of my case, standing to make a claim, and important things in the law in general. I have clearly organized my concrete legal injuries, the causes, disclosures, relief within the court's grasp, and I am currently stuck tangling with a jurisdictional [non]issue by an avoidant defense team and judge.

Basically, everything started with a photo of a former boss from a warehouse who threatened to retaliate against "my future" which found its way on a university webpage. Instead of initiating a UC whistleblower investigation, several UC employees went out of their way to A) wrongly perceive me as a protected class as an excuse to make a prejudicial conclusion with unusual knowledge of the events elsewhere, B) breach a duty of care related to safety in dorm housing, C) investigate my student conduct and punish me in a discriminatory or retaliatory manner, D) prevent me from proving allegations and obtaining evidence, E) imposed punishments against university rules, F) delay and obstruct several grievance procedures, and more. My claims largely rest on due process and several irreparable injuries. I was officially suspended, but the university made two unofficial, sideways attempts to dismiss me by cutting me off from university online software and assigning me a "permanent" disciplinary probation against university policy that disqualifies me from the financial aid I spent my entire young-adult life working towards.

I am more familiar with my case work than anyone else ever will be. I just need someone who can effectively get through to the defense team and end this madness according to the incredibly overexerted efforts I have sacrificed over the last 11 years of my life. Other than a case involving bodily mutilation, how many possible steeper irreparable injuries are there that warrant a HIGH REWARD recovery or settlement? Instead of addressing the sound exception to the normal requirements for exhaustion of remedies which I have repeatedly raised, the totality is continuously omitted from court rulings, and I keep being wrongly accused of "putting my periods on backwards by professionals who have run out of serious answers."

I am being accused of A) providing "no" evidence in the face of direct communications with wrongdoers about their wrongdoings in real time, audio exhibits, and more; B) claiming "zero" federal injuries in the face of an obvious due process claim as well as the irreparable injuries and a totally-avoided, perfect precedent for normal exhaustion requirements in a case like mine; and C) overt avoidance of a variety of motions and the topic of redressability whatsoever.
